PROFESSIONAL SUMMARY

Software Developer with 7+ years of experience delivering enterprise, e-commerce and mobile applications with C#, ASP.NET Core and SQL Server. Professional experience across Azure hosting, automation, security, data, monitoring and DevOps, alongside AI agents, Azure Face API and translation capabilities.

PROJECTS

RSL Awards Platform

March 2022 - Present

E-commerce platform connecting online sales, payments, mobile access, cloud identity and business reporting.

- **Commerce and payments:** Built Shopify product, order and inventory integrations, plus Stripe and PayPal webhooks, refunds and subscription billing.
- **Mobile and identity:** Delivered an iOS/Android .NET MAUI app with browsing, order tracking and push notifications; integrated AWS Cognito authentication.

.NET / ShopifySharp / .NET MAUI / AWS Cognito / Stripe / PayPal / Azure CI/CD / Power BI

Discern Living Web Application

August 2020 - January 2022

Business management platform for services, pricing, mailing, multi-level approvals and profit/loss reporting.

- **Team delivery:** Led development within a six-person team using ASP.NET Core, C# and SQL Server.

ASP.NET Core 3.1 / C# / SQL Server / JavaScript / jQuery

Andera Parking Application

January 2020 - July 2020

- **Hierarchical data:** Built company and branch structures with infinite-depth parent/child traversal logic.

ASP.NET Core 3.1 / C# / SQL Server / JavaScript / jQuery

TECHNICAL SKILLS

Languages and development: C#, SQL, .NET, ASP.NET Core, REST APIs, JavaScript, jQuery, .NET MAUI

Azure compute: App Service, Azure Functions, Virtual Machines, Container Apps

Automation: Logic Apps, Azure Automation Accounts

Data and storage: Azure SQL Database, SQL Server, Blob Storage, Azure Files, Storage Queues, Azure Cache for Redis, Azure Managed Redis

Security and identity: Key Vault, Microsoft Entra ID, managed identities, Azure RBAC, AWS Cognito, OAuth 2.0, OpenID Connect

Monitoring and DevOps: Application Insights, Azure Monitor, Log Analytics, Azure DevOps Pipelines, Azure Repos, Azure Boards, ARM templates

AI and tools: AI agents, Azure Face API, translation, Power BI, Git, GitHub, Bitbucket, JIRA

Architecture and delivery: Domain-Driven Design, application caching, CI/CD, Agile delivery, code reviews

PROFESSIONAL EXPERIENCE

Web Developer | RSL Awards, London

March 2022 - Present

Delivered commerce, payment, identity and mobile integrations. Maintained Azure CI/CD pipelines, implemented caching and provided Power BI reporting using Domain-Driven Design practices.

Software Developer | Techpro Compsoft Pvt Ltd, Noida

January 2020 - March 2022

Led business-platform development, implemented hierarchical data models and designed REST APIs. Contributed to Agile delivery and code reviews using JIRA, Bitbucket and GitHub.

CERTIFICATIONS AND TRAINING

Microsoft Certified: Azure Fundamentals (AZ-900) | AI-103 exam preparation in progress

EDUCATION

Master of Computer Applications (MCA) | C-DAC / IP University, Noida | Aug 2017 - Aug 2020

Bachelor of Computer Applications (BCA) | JIMS Vasant Kunj / IP University, Delhi | Aug 2014 - Jun 2017
